INTEGRATION
INSTALLATION GUIDE
Overview

This guide describes how to integrate Sezzle into the Kibo Commerce platform so you can provide Sezzle as a payment option to your customers. After integrating Sezzle, your Kibo site will:

- Offer Sezzle as a payment option on the checkout page
- Process Sezzle charges in your Order Management System

Sezzle Installation

To install the Pay with Sezzle Application by Kibo eCommerce on your site, click on the below links which will begin the install process.

- This first link is for the gateway - https://developer.mozu.com/console/marketplace/Evol.SezzlePaymentGateway.1.0.0.Release

  1. You will be directed to login into your Kibo account

  2. Login using your Kibo Credentials
3. Next choose the Sandbox account where you want to install this gateway

Sandbox Environments
Sandbox accounts emulate your production environment so you can test development assets without impacting your live eCommerce site(s).

<table>
<thead>
<tr>
<th>Name</th>
<th>Tenant Id</th>
<th>Developer Account</th>
<th>Create Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Evo-DEV-1</td>
<td>32210</td>
<td>Evolve Develop...</td>
<td>4/18/2022</td>
</tr>
</tbody>
</table>

4. Under **System>Settings>Payment Gateways**, click on the Sezzle Integration.

5. Enter Payment Gateway Name, Public and Private API Keys

6. Under **System>Settings>Payment Types**, Configure Sezzle as a Payment Type

7. Configure the Order Processing Option

- The following link is for the API extensions. Click on this the below link to install the API extensions needed to route the order and follow the proper payment process to complete Sezzle payments.
  
8. Update your Kibo theme

After installing Sezzle, you will need to update your theme to display the Sezzle payment type on the front end to allow customers to choose Sezzle as a payment option. This will require a front-end developer to make these changes to adapt to your existing cart/checkout flow.

Support Services

Should you require Consulting Services assistance with the installation or changes to the front-end, please contact support@evolveinfo.com.

Who is Evolve Information Solutions?

Evolve is a full-service, enterprise retail technology consulting firm that helps you rise above the clouds to make sense of complicated IT projects. Today’s consumers expect the best experiences whether it’s online, in the store, and everywhere in between, and you need to do more in a shorter time. Gone are the days of multi-year, resource-draining projects. You need a modern approach to consulting to enhance these experiences for your customers.

Evolve was founded during the shift from lengthy on-premises implementations to shorter, more efficient consultations. You could say we were born in the cloud, and we are positioned to help you maximize your existing legacy IT investments along with new cloud solutions that puts the “shop anywhere, shop anytime” customer first. Our team structure and methodology allow us to provide industry-leading application enablement, business process engineering, organizational design, and tactical solution delivery to ultimately help you enable unified commerce.

Working with Evolve is not consulting as usual

The continued collision of accelerated online shopping, supply chain challenges, and shifting buying behaviors in a post-pandemic world present new challenge to retailers. That’s why you need a partner that knows how to connect technology to the right processes to best serve how your customers want to shop. Evolve looks to solve business problems instead of merely completing a project. Our team understands the challenges you are currently facing and has real-world experience and knowledge to move your business forward.
